3Y0J Bouvet Island –update by Ken LA7GIA

What's going on right now in the team? In such big projects you have an overall plan e.g how to conduct the DXpedition, what vessel, dates, equipment and how to do the fundraising. At the same time you don't want to miss out on the small details and this has our highest attention. (A) These days we are going into the fine details. By 1st March we will produce detailed equipment list for all gear, i.e radios, antennas, tents, cables, filters, tables, chairs, food etc. The detailed equipment list will include packing details, dimension and weight so we can finalize the logistics. To make sure we have all needed gear on the list we will run through multiple QC sessions to pin down any missing items that will go into a punch list. All purchasing will soon be finalized. (B) The detailed equipment list will be used to prepare 3 loading plans. Loading of the container in Oslo summer 2022, loading of vessel Marama and loading equipment into the milpro zodiak. Be rest assured we will not put the equipment into an arbitrary sequence and hope for the best! The loading plan and how to build the camp has evolved over the course of 20 months since we started planning this DXpedition back in April 2020, and within the next 3 months it will be finalized. It means that each equipment will be packed and tagged indicating its sequence, content and what zodiak run it belongs to. This in a predetermined order, we will not shift equipment around because the tagging serve a purpose that will achieve our goals. We don't want to e.g land with the antennas, just to discover the coax or guy anchors or installation tools are in the sailboat! Full story here: <https://www.dx-world.net/info-3y0j-bouvet/>

TX5N Austral Islands –update

Our equipment arrived by air in Papeete, Tahiti on French Bee Airlines, exited Customs, and was trucked to the seaport. It was loaded on an inter-island cargo ship and is scheduled to arrive Raivavae on March 1st. The shipment consisted of 2 pallets and one small crate, total weight ~1,100 pounds.
